Conference
partners:

The Let's Talk LD Post-Secondary Planning and Transition Conference is one of only a few multi-day conferences in the nation that is designed and produced SPECIFICALLY for **neurodivergent** youth and young adults (as well as the family members, allies, and transition professionals who support them). This conference will address the unique challenges faced by **neurodivergent** individuals as they navigate their postsecondary planning and transition journey in pursuit of academic, job/career as well as civic engagement opportunities.
